

www.agroseller.net

Organic Farm : Company specialized in organic fields.

Super Oils: Company specialized in processing of special seeds oils.

Flour Technology: Company specialized in special flours.

Energy & power: Company specialized in production of alternative energy.

Each of those companies was born as a department within Agroseller, but thanks to the growth and the levels of specialization that they were acquiring, now they are companies established as independent, however working exclusively with us, guaranteeing that the organic products we offer are of highest quality and have competitive prices.

In addition these mentioned companies, we also have associations with several agroindustrial companies and we even form temporary strategic associations if the demand for our customers products deserve it.

Therefore the products that we offer are premium quality products and in case of our organic products, there are duly certified, guaranteeing that our customers get the product they are looking for with the qualities they want.
