Cashmere Knitted Scarves with felted fringes **(100% Cashmere)**

Knitted cashmere scarves are knitted from the extremely soft and warm hair undercoat combed only from the cashmere goat bred traditionally in high mountains (about 13,000 ft). After knitting the scarves is washed several times and carefully felted by hands. This felting process makes the scarves more softer and gives the unique cloudy look with artistically twisted fringes. This makes the cashmere scarves with smooth silken feel with a lightweight warmth and is sustainable by the Nature.
