

# ABOUT US

---

The group of companies "RALADOS" successfully works in the market of forwarding services since 1998. Reliable partners, as well as the professionalism of our employees allow us to meet the needs of the client as much as possible!

## Our services:

- ✓ Organization of cargo transportation by all types of transport – rail, road, sea, air transport.
- ✓ Transportation of complete, partial and oversized cargo.
- ✓ Customs clearance and provision of all types of customs services.
- ✓ Cargo insurance
- ✓ Services for the consolidation, storage and shipment of small consignments.
- ✓ Software for calculating the cost of rail transportation.
- ✓ Trading services.

## Our priorities :

- ✓ Individual approach.
- ✓ Reliability.
- ✓ Speed.
- ✓ Rational pricing.

# Road shipment

---

As it's known, road shipment is one of the most common methods of delivery. **GC «RALADOS»** organizes the transportation of goods, using both own park of trucks and hired transport.

Road shipment with **GC «RALADOS»** has a number of advantages:

- ✓ Availability.
- ✓ Reliability.
- ✓ Safety.
- ✓ Versatility.
- ✓ Possibility of sending the goods on the day of application.
- ✓ Individual approach.

Today our company has ample opportunities for the delivery of goods in the directions of Europe, CIS and Asia!

# Rail transportation

The long-term direct cooperation of the GC "RALADOS" with railway structures allows our clients to be confident in the quality of the services provided.

The employees of our company will develop an optimal transport scheme for the transportation of export-import, transit cargoes, as well as provide information on the location of the goods along the route.

The cost of transportation decreases with the increase in the volume of transported goods!

# Multimodal transportation

The basic principles of work of the company **GC "RALADOS"** in the implementation of multimodal transport:

- ✓ Development of an optimal transport scheme.
- ✓ Reduction of the delivery time of the shipment.
- ✓ Ensuring the integrity and safety of cargo.
- ✓ Reduction of transportation costs of the customer.

# IT solutions

GC "RALADOS" is the official dealer of STM – the developer of software products, including the software for calculating the freight rate **Rail-tariff**.

**Rail tariff has the following options:**

- ✓ Calculation of the transportation fee taking into account all operating coefficients and indices.
- ✓ Расчет нормативного срока доставки грузов.
- ✓ Определение величины сборов за сопровождение и охрану.
- ✓ Расчет дополнительных сборов.
- ✓ Автоматическая рассылка обновлений.

The demo version of the program runs in full mode with no restrictions for **15 days**, which allows users to familiarize themselves with the program's capabilities.

The demo version can be downloaded on the website : [www.ralados.by](http://www.ralados.by)

# IT solutions

GC "RALADOS" is also the dealer of the **ERIC** program of **Oltis** group. This program is designed to calculate the railway tariff for European countries.

The program database forms the basis and contains over **250** self-licensed modules that provide information on product lists, railway stations, tariff distances and prices, shipping documents, transportation rules and the railway infrastructure.

*The advantage of the program is:*

- Multilanguage.
- ✓ Modularity.
- ✓ Continuous and regular updates.

# Business Services

The provided complex of logistics services provides full support of foreign trade transactions for the purchase and delivery of goods

The complex of these services provided by our company includes:

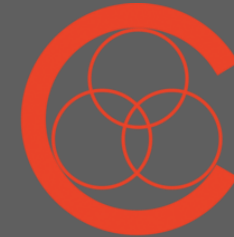

- ✓ The organization of transportation of cargoes, cargo storage and service in warehouses.
- ✓ Registration of customs documentation.
- ✓ Cargo insurance.

# Associations and certificates

The guarantee of the quality of the services of **QC "RALADOS"** is membership in such organizations as BAME, FIATA, BAMAP, BelCCI, as well as CMR insurance and freight forwarders liability insurance.
