

# PRODUCTS

Garden furniture constructed of solid wood, artificially kiln dried to 10% moisture content or under customer specifications, own designs or according to customer specifications.

Available in different wood species used specially for outdoor.

## CUSTOMIZE DOORS

Constructed of solid wood, artificially kiln dried to 10% moisture content, the structure is joined by the application of a molding and countermolding system, reinforced by dowels, with PVA-based adhesive, considerable temperature and humidity variations resistant, in compliance with EN-DIN 204 and ASTM 310 standards.

## OUR FACTORY

Our manufacturing plant is located in the city of El Alto, the department of La Paz in Bolivia. Due to its unique characteristics of temperature and humidity, the climate in the city of El Alto provides optimal conditions for the drying and preservation of wood.

On an area of 72,000 square feet, we have all the services (21,800 square feet covered, drying kilns and machinery) for the processing of wood.

## WHO WE ARE

SOEX is an industrial company that has been manufacturing wood products since 2003. Our area of expertise is in the production of parts and pieces of furniture, and solid wood doors.

Our products are made under the technical specifications of our customers; we meet all their requirements, so they can be incorporated into their production processes.

Trust is one of our fundamental values; therefore our business relationships are based on mutual trust. This confidence is reflected in the relationships with our suppliers as well as with our employees. Due to this company policy, we seek to establish beneficial and long term relationships that will be mutually profitable.

### MISSION

To establish long-term business relationships based on mutual trust, providing sustainable development with a permanent commitment that seeks to benefit all the people that take part.

### VISION

SOEX will be the leading company in the industrial sector of the finest wood products in Bolivia due to its efficiency in first-class manufacturing processes, skillful administrative management, conscientious resource utilization, and outstanding market compliance.
