

Why buy from us?

Quantity

We have large quantities of organic gums available for constant supply

Quality

We source organic gum from the woodlands, free from impurities.

The production process

The gum myrrh process at Horn Afrik involves
1. Tapping and harvesting under close monitoring to ensure a quality end product
2. Post harvesting proper handling
3. Customized packaging to fit customer expectations.

Horn Afrik Experience

Horn Afrik Gums Limited, has over the years accrued substantial and valuable experience in the gum myrrh value chain. This has helped it to observe internationally established quality standards.

Packaging

Always consulting our buyers for specific packaging requirements.

Pricing

Our prices follow global market prices and are competitive which has contributed to our strong position in the market. We intend to export our products in large scale with low prices benefiting from economies of scale.
