

Public grant for developing markets:

BUSINESS PARTNERSHIP SUPPORT

Business Partnership Support aims to get Finnish companies and other commercial actors involved in meeting the UN Sustainable Development Goals by creating sustainable and decent jobs. This also helps to create opportunities for growth and international expansion for Finnish companies in developing countries!

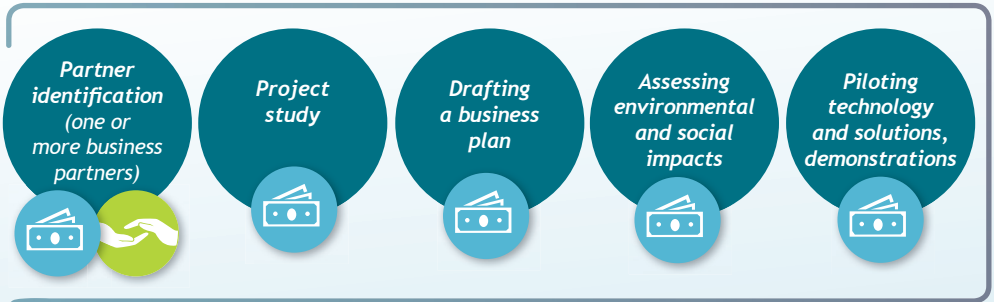

- establish a new company or joint venture
- Begin importing or subcontracting
- Sign a franchising or licensing agreement
- Pilot with an international organization

Apply for funding from the very start

Describe and budget the project phases on your application based on your current knowledge, on your way towards desired long-term business activities. The final result often differs from the initial idea, and we understand this.

Support for the project phases below is 15 000 - 400 000 €

PREPARATION PHASE

IMPLEMENTATION PHASE

Participate in our application workshop

PARTICIPATE >>

In our application workshop, you will learn to assess your project's eligibility for funding and learn how to submit your application. Finnpartnership organizes application workshops every month (bi-monthly in English and Finnish).
