CONSCIOUS LIFESTYLE

Indonesia is famous for its long wood carving traditions. Skillful artisans in Indonesia crafted this cutlery set. Buying these items, you support the fair practice of local Indonesian craftsmanship. The shaping and polishing of the cutlery are handmade. At the final stage, we at ART CLASSIC treat the spoon and fork with organic coconut oil.

ART CLASSIC is a Indonesia-based manufacturer and exporter which offers a curated collection of products for home and soul founded by Sutrisno Tri Widodo.

We advocate a sustainable way of living, production and consumption, and offer high-quality and ethically produced items. We also believe that every item we bring into our lives should be meaningful, inspiring and crafted with care and talent. That is why we collaborate with independent artists, artisans and designers from Jepara (Central Java-INDONESIA) and around the globe.

Environment Conscious living is not only about being aware of your lifestyle and your surroundings but choosing to act responsibly. It may show you the path to making decisions based on eco sustainability and ethical concerns.

We choose to design from nature and minimizing impact on the planet. We choose to reduce, reuse and turn waste into products for a stylish interior. We choose to being friendly to people in need and we choose to work together with small workshops to create more jobs.

Our goal is not money or profit but change. Together with you. Because when we do it together, we can really change the world.

Choose wisely,
founder ART CLASSIC

Every piece of furniture has a uniqueness. It is made from wood from old wooden houses, barns, boats and trucks or from branches which guarantees that not one bench or stool is the same. The wood keeps its authentic look and feel and can contain holes, nails, screws or bolts along with other imperfections. Combined with natural fibres like banana leaf, cotton or seagrass it creates a natural organic atmosphere in a room.
