## WHY CHOOSE US?

We are a company dedicated to the production and commercialization of specialty and certified coffee. PERUNOR was established in July 1998 with the objective of meeting the demand for high quality and certified coffees (organic, fair trade, among other certifications) from buyers in the United States, Europe and Canada, for which the founders decided to start a program of cultivation of specialty coffee and established commercial alliances with various cooperatives and associations of coffee farmers. The alliances made, in addition to meeting market demand, allow us to contribute to improving the living conditions of small-scale coffee farmers, by improving their income through the quality premium and certifications that the market pays for specialty and certified coffees.
