

MANUFACTURING ENTERPRISE of
PROCESSING OF DRIED FRUITS AND
CANNED GOODS

Visol Isfara is a young and dynamically developing company founded in 2012 in the Republic of Tajikistan. Currently, the company operates in two areas: the production of canned products, drying and processing of nuts and dried fruits. Our company is located in an ecologically clean area in the north of Tajikistan, in the city of Isfara. All products produced by our company have excellent taste and aroma. In the assortment of production, fruit juices and compotes, canned vegetables from tomatoes and tomato paste, as well as dried fruits of fruit, berries and nuts, including a mixture of dried fruits, dried apricots, dried drains, rosehips, legumes and production and processing of products uses only natural and environmentally friendly products that pass the quality control carried out by the production laboratory. To date, our products are represented in all magazines and retail outlets within our country and in all regions of the Russian Federation. Every year our company improves the quality of output and increases the volume of production.
