## Experience

Our sewing company has been on the market for more than 12 years. For that time, we have provided our service for Ukrainian, Polish, Lithuanian, Estonian, German and many other companies.

Our main customer on the Ukrainian market is:

- metallurgical enterprises,
- the Ministry of Health (specially designed clothing for ambulance crews),
- the Ministry of Transport (specially designed clothing for airports and road services)
- the Ministry of Defence (specially started production of military clothes for Ukrainian army)
- European companies are present in Ukraine (like Nissan, Volkswagen, Tarkett, etc.)
- and many others.

Moreover we successfully win tenders and fulfill government orders.

Besides we had an experience of tailoring military clothes for the Estonian army according to the NATO standards.

## Main values

### ► Premium quality products

The main feature of our work is high quality of tailoring. We provide the best service for our client and satisfy all needs.

### ► Individual orders

Our experienced designers and tailors take into account all customer requirements and create workwear that is perfectly suited to specific work conditions.

### ► Trust

Trust is the most valuable currency and the strongest foundation for building human relations. That's why we do business honestly in relation to the partners.

### ► Social responsibility

We are constantly improving for the well-being of our employees, starting with the reconstruction of production facilities and purchasing new modern equipment. We are also open to people with disabilities and staff training. We often join social projects to help.

### ► Full logistic service

We provide full logistic service, that includes:

- delivery textile from our client to us
- delivery readymade product to our client
- possibly service of customs clearance

## Plans

- ▶ Increase product capacity till 10 000 - 15 000 pcs\month

We plan to develop our own production - increasing the number of workplaces and production capacity. This year, we aim to equip the third sewing production in Lviv, Ukraine. It helps us to support Ukraine's economy more.

- ▶ Provide 50% of production for European market

One of our main aim is to focus bigger part of current production capacity of tailoring service to the European market and provide production every month according long-term contracts. Now we are actively looking for partners.

- ▶ Develop own work clothing collection for European market

In a year, we plan to develop our own clothing collections and supply products to the foreign market under trademark "ROSSE". Now we are preparing a collection, documents, certificates, selecting textiles and looking for distributors.

- ▶ Develop productions with new equipment

Our sewing production is equipped with all necessary sewing machines and accessories. But if we need special equipment to satisfy your order, we canbuy it. Our production is ready to meet new challenges!
