ABOUT US

Over a century of production and customer loyalty in the country of origin, the **consumotion of RC brand flavors has never faded.**

This success, in 2004 made Royal Beverage bring the latest technology for the production of soft drinks and energy from America in Gjiropa.

The license of the American company, "Royal Crown Cola International" enabled not **only Kosovars, but also the region of Southest Europe to enjoy the various flavors of the RC brand.**

From the beginning, the opening of this manufacturing giant received great attention,as this investment had gained the right to be distributed in three countries in the region: Albania, Macedonia, Montenegro and Serbia.

This enabled the RC brand to have a much easier reach in these markets but also beyond.

A non-alcoholic soft drink with an American origin, RC Brand, and with fantastic flavors since 1905, is still admired by consumers today even after more than 100 years.
