Sector: Agriculture

Country HQ: Kenya

Founded: 2019

Target market: Agribusinesses, traders, agri processors

agriBORA is a Kenyan agri-fintech transforming smallholder agriculture with a tech-powered platform for inputs, finance, and market access. We equip agriHUBs with tools to digitize operations, offer BNPL, and aggregate outputs. Our mission is to build resilient, bankable agri businesses and position Africa as a global agricultural powerhouse through smart tech and local empowerment.
