Sector: Climate Change/e-Mobility

Country HQ: Senegal

Founded: 2022

Target market: VTC drivers and young entrepreneurs

Ewanala

WANALA E-Mobility Platform is transforming urban mobility in Senegal by promoting electric vehicles (EVs) to reduce CO2 emissions and support sustainability. For example, users can access real-time insights through the platform, showing how EV usage lowers costs and environmental impact. By fostering local jobs and partnerships, WANALA is driving the growth of sustainable transportation and digital inclusion across West Africa.
